

US Imaging Network

US Imaging Network (USIN) is a concierge scheduling program for MRI, CT and PET scans. USIN educates members about their advanced radiology scan, offers transparency concerning safety and cost of radiology services, and takes care of all the scheduling details.

**For more information
about US Imaging Network
please call 877-874-6385**

Why use US Imaging Network?

- You may reduce your out-of-pocket costs when utilizing USIN's network of radiology facilities
- Provides concierge scheduling at a time and place convenient to you (typically within 24-48 hours) and takes care of all the scheduling details
- Access to a national network with over 2,200 high-quality facilities which have gone through stringent safety and quality evaluation and certification

**You may reduce your out-of-pocket costs when
you schedule through US Imaging Network!**

How to use your USIN benefit

- When your advanced imaging scan (MRI, CT, or PET scan) is approved by HealthComp call USIN at 877-874-6385 to schedule an appointment.
- USIN will handle scheduling your appointment at a time/location convenient for you. It is important that USIN schedules the appointment to ensure the USIN benefit is applied properly.
- USIN provides pricing transparency regarding the cost of your test.
- USIN provides you with written appointment confirmation and directions as well as what you can expect during your exam.
- When you arrive to your appointment, tell the facility that US Imaging Network will be the payer for your exam. It is important that you do not show your insurance card at the Imaging Center.
- After your exam is complete, USIN sends a satisfaction survey asking you about your USIN and radiology facility experience.
